PROFILE

I strive to develop as a front-end developer, actively applying my knowledge in HTML, CSS, JavaScript and testing to create high-quality and functional web applications. Willing to invest time and effort to constantly improve skills, learn new technologies and best practices. Open to work on real projects, which will help me in practice to develop professional competencies and improve team interaction, becoming a reliable and productive team member.

Among my good features are:

purposefulness.
persistence.
desire for learning and development.
sociability
discipline.
